

40 t/50 t Embossing Press

Optionally with a Shelf

The 40t embossing press is ideal for the embossing of car license plates in standard formats. With continuous embossing it can reach an embossing speed of 240 units per hour.

In combination with our counter embossing tool, the 50t embossing press is most suitable for even filigree emblems and for use with precise embossing borders. We offer this 50t press in two different sizes.

All embossing presses manufactured by us are CE-certified and can be operated with conventional 230 V electricity. They have a maintenance-free hydraulic power unit which is connected as a separate unit and works with a dual stage pump that runs extremely smoothly. Additional sound insulation for the hydraulics as well as organizational shelves with space for embossing tools and license plates blanks are optionally available.

Specifications	40t S / L Embossing Press	50t Embossing Press	50 t Embossing Press XL
Art. No.:	086-0490 / 086-0499	086-0495	086-0496
Weight embossing press:	165 kg	195 kg	215 kg
Weight hydraulics:	40 kg		
Dimensions (W x H x D):	750 x 530 x 520 mm		
Dimensions cabinet system (W x H x D):	1,078 x 1,960 x 600 mm		
Embossing surface:	540 x 140 mm		540 x 210 mm
Connection:	230 V, 50 Hz, single-phase		
Output:	1.5 kW		
Hydraulic oil:	17 l (viscosity: 10)		
Piston:	2 piston à 85 mm	2 piston à 95 mm	
Convenience:	automatic press start		
Max. operating pressure:	350 bar/40.96t	350 bar/50.65t	
Safety:	Automatic shut-down if the load is distributed unevenly		
Embossing speed:	240 piece/h in the event of continuous embossing 480 piece/h in the event of continuous double embossing (only possible for Muschard embossing tools)		

Additions to the product range

- Embossing tools
- Counter embossing tools
- License plate blanks
- Car frame
- Shelf combination

All machines manufactured by Muschard are CE-certified and may be operated using 230 Volt electricity.
